THE HOME PHYSICIAN

This Recipe Makes a Splendid Remedy for Coughs.

The home-made remedy described below will be found a very handy and effective thing to have in the home ready for use. It is simple, pleasant to take, easy to prepare, and lasts a family a long time. It wipes out a cough quickly.

Take a pint of Granulated Sugar, add one-half pint of warm water, and stir about two minutes. Put two and one-half ounces Pinex (50 cents worth) in a pint bottle and fill up with the Granulated Sugar Syrup. Take a teaspoonful every one, two or three hours.

Cough preparations, as a rule, are mostly syrup. Granulated Sugar Syrup is the cleanest and most lasting. It is easily applied, absolutely harmless, unaffected by heat, and in any shade produced. Sample of hair colored free.

None of the weaker pine preparations can compare with the real Pinex itself. If your druggist hasn't it, he can easily get it for you.

This recipe is also splendid for chest pains, whooping cough, hoarseness, bronchitis, etc.

Strained honey can be used instead of the syrup, and makes a very fine honey and pine tar cough syrup.
